# About Us

At Skroman Global, we are redefining the way people interact with their living and working spaces through intelligent, intuitive, and energy-efficient smart automation solutions.

Founded with a vision to make modern technology accessible and meaningful, Skroman empowers homeowners, businesses, architects, and developers to create environments that adapt, respond, and simplify everyday life. From smart switches and curtain controllers to secure digital locks and integrated sensor systems, our products are designed to combine functionality, design, and performance.

With a strong commitment to innovation and quality, we offer solutions that are easy to install, effortless to control, and built to elevate comfort, convenience, and sustainability. Whether you are stepping into a new home or upgrading an existing space, Skroman ensures your environment is always in tune with your lifestyle.

## Our Offerings

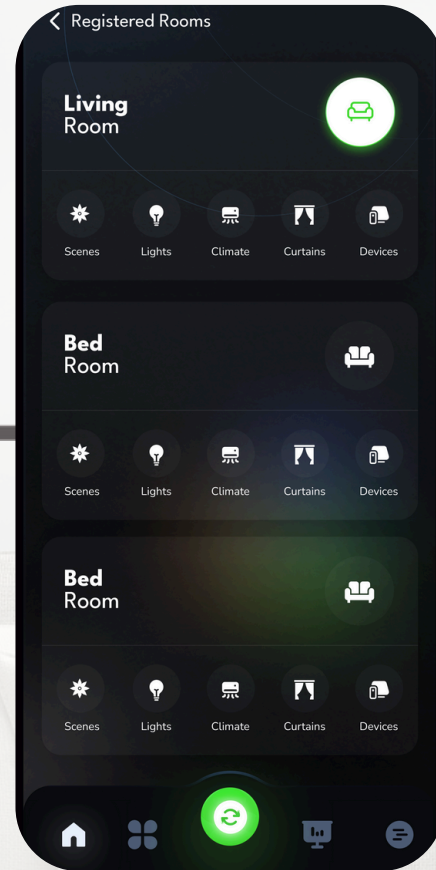

### What Drives Us

- Innovation that adds real value
- Simplicity in every interaction
- Security built into every feature
- Sustainability at the core of our systems

# Smart Home App

One App. Total Control.  
Manage Your Smart Home Anytime, Anywhere.

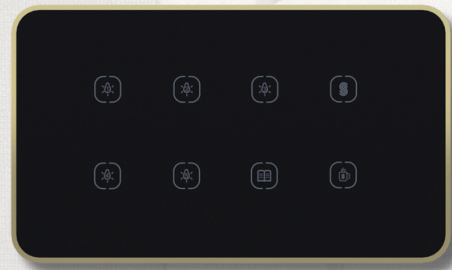

- All-in-One Dashboard – Control lights, fans, curtains, locks, and appliances with a single tap.
- Scene & Schedule Automation – Customize moods and automate daily routines effortlessly.
- Real-Time Monitoring – Stay connected to your home even when you're away.
- Voice Assistant Integration – Works seamlessly with Google Assistant & Alexa.
- User-Friendly Interface – Simple, intuitive design for all age groups.

## Smart Touch Panel

Compatible with voice assistants, energy-efficient, and easy to install.  
Smart living, simplified.  
Style, Comfort & Smart Living—All in One Panel

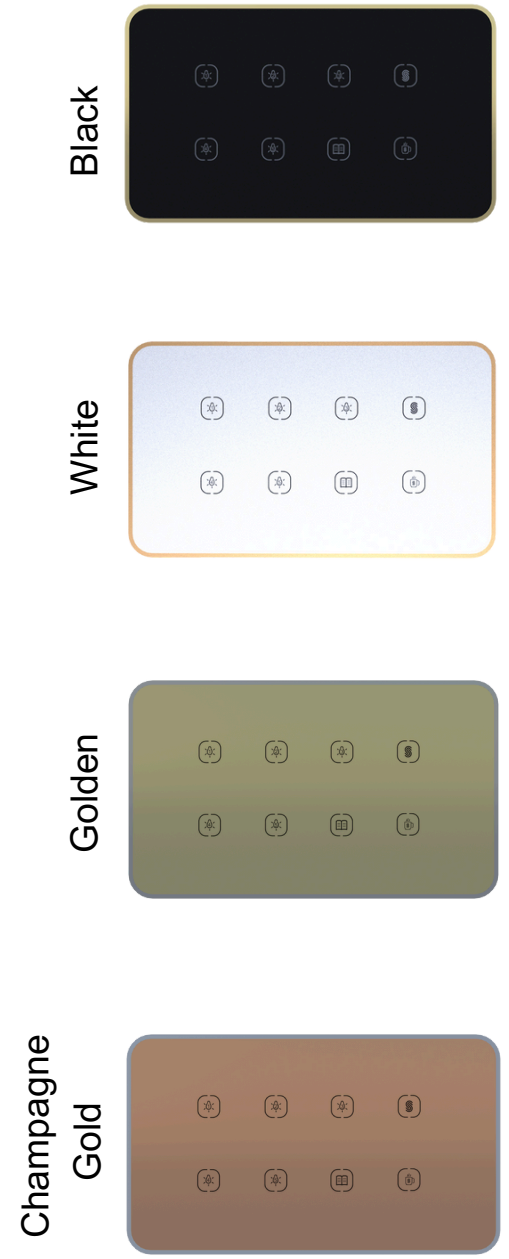

Presenting the Skroman Smart Switch Series:  
Edge™ | Infinity™ | Aura™

- Sleek & Stylish Design – Blends perfectly with modern interiors, available in multiple finishes
- Smart Control at Your Fingertips – Easily manage lights, fans, curtains, and more with a single touch or app.

# Touch Panel Customization

At Skroman, our smart touch panels are fully customizable to match your style and needs. Choose from a variety of premium colors, glass finishes, and personalized icon colors—designed to blend seamlessly with your interiors and reflect your unique taste.

# Skroman Smart Home

## Key Features

- 1 Control lights, fans, appliances, curtains, and more through the Skroman app or voice assistants like Alexa & Google Assistant.
- 2 Automate your daily routines with personalized scenes—like “Good Morning” or “Movie Mode”—and scheduled actions.
- 3 Save power with auto shut-off features, real-time load monitoring, and smart scheduling that reduces unnecessary usage.
- 4 Easily fits into existing electrical systems without major rewiring—perfect for new homes or upgrades.
- 5 Premium designs with customizable colors, glass finishes, and icon personalization to match your interior style.
- 6 Works with digital locks, sensors, gate controllers, and CCTV to create a unified smart security system.

## RGBW Controller

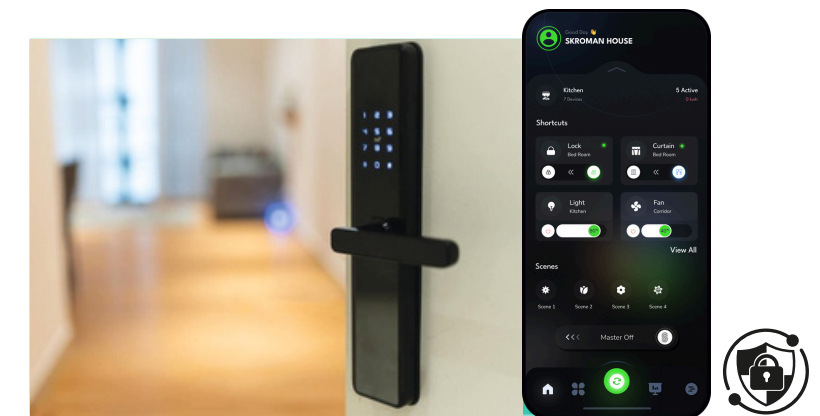

Create your perfect vibe with Skroman’s customizable RGB controller. Personalize colors, moods, and lighting scenes - all at your fingertips.

- Custom Color Control
- Dynamic Lighting Scenes
- App & Voice Integration
- Perfect for Any Space

## Door Lock Controller

Secure your home with smart access control lock and unlock doors remotely with ease. Designed for safety, built for convenience.

- App & voice-enabled locking
- Real-time access logs & alerts

## Gate Controller

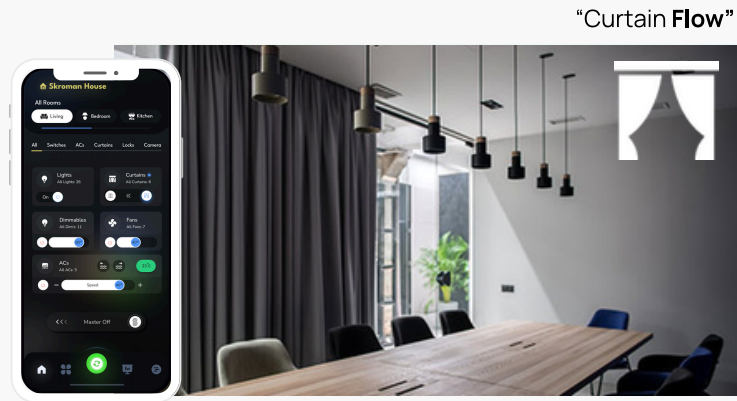

Open your main gate with just a tap no remotes, no hassle. Perfect for villas, apartments, and commercial spaces.

- Smartphone-controlled gate operation
- Seamless integration with home automation system

## Curtain Flow

Let your curtains respond to real conditions—sunlight, time of day, or temperature. Curtain Flow uses sensors and smart logic to manage natural lighting effortlessly.

- Smart automation based on environment
- Enhances comfort and energy efficiency

“Curtain Flow”

## Curtain Controller

Automate your curtains with precision—open or close them with a tap, schedule, or voice command. Skroman's Curtain Controller adds both luxury and convenience to your space.

- Supports remote, app, and voice control
- Ideal for motorized track systems

## IR Blaster

The IR Blaster acts like a universal remote, allowing your Skroman system to send infrared signals to control multiple traditional IR devices such as TVs, set-top boxes, air conditioners, and home theatre systems.

- Controls multiple IR devices from one central location
- Works with Skroman App and voice assistants

## IR Emitter

The IR Emitter is a dedicated signal transmitter that extends control to devices located in hidden or enclosed spaces, such as behind cabinets or walls. It transmits IR signals from the IR Blaster to specific devices.

- Directs infrared signals to hard-to-reach or hidden devices
- Ensures stable and focused control over a single appliance

## Smart Panel

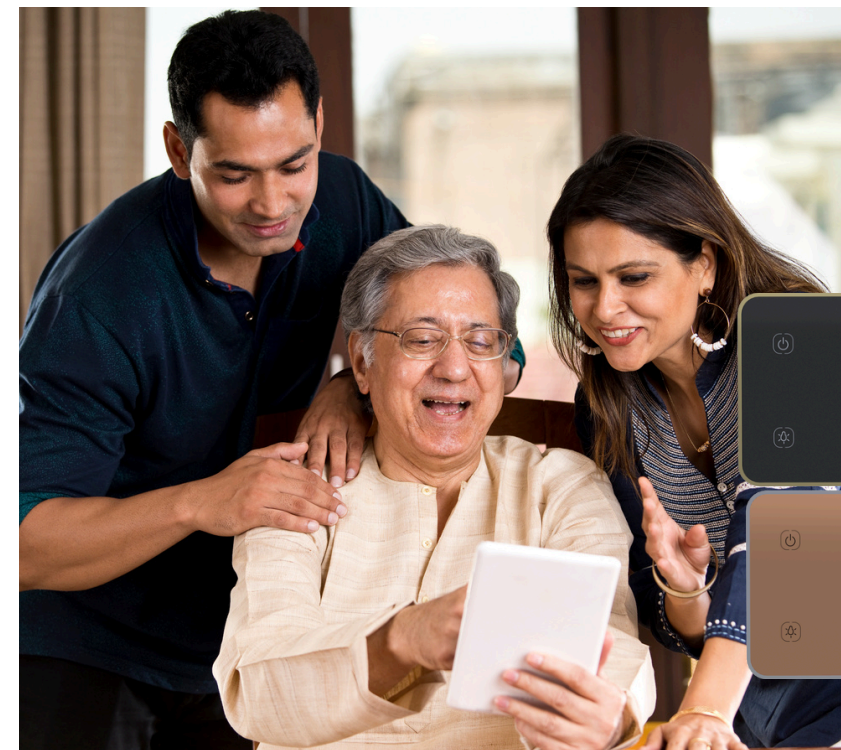

Experience modern living with the Skroman Smart Panel, a sleek touch interface that puts complete control of your home at your fingertips. From lights and fans to curtains and appliances, manage it all with a single panel elegantly designed to match any interior.

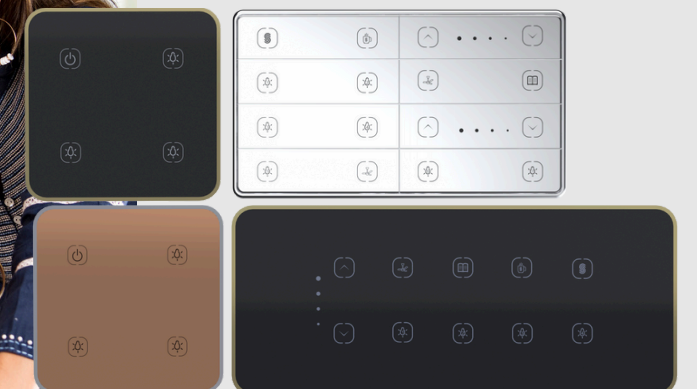

**Navigate  
your living**

## Scene Keypad

The Skroman Scene Keypad lets you trigger pre-set moods or actions across your smart home with a single press. Whether it's "Good Morning," "Movie Time," or "All Off," the keypad gives you instant control over lights, curtains, appliances, and more—no app needed.

**A Home That  
Understands You  
And Everyone You  
Love.**

# Innovative Features of Skroman Smart Home

## Unified App Control-

Control your entire home—lights, fans, curtains, locks, appliances from a single, easy-to-use app.

## Voice Assistant Integration

Seamless compatibility with Google Assistant and Alexa for hands-free smart control.

## Personalized Scene Setting

Create and activate customized moods like "Relax Mode", "Dinner Time", or "Movie Night" with one tap.

## Smart Scheduling & Timers

Automate your daily routine with scheduled ON/OFF times for appliances, lights, and devices.

## Energy Monitoring & Auto Shut-Off

Track real-time power consumption and auto-turn off idle devices to reduce energy bills.

## Secure Digital Lock & Gate Integration

Smart access control for doors and gates, with remote locking, unlocking, and real-time access logs.

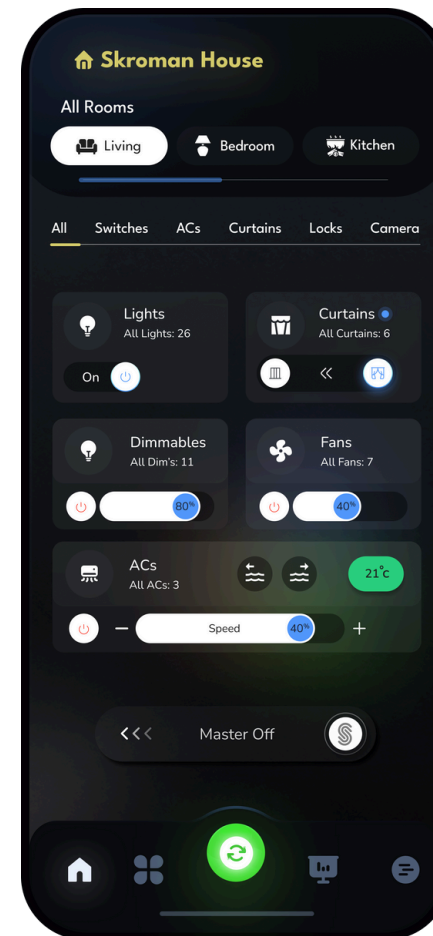

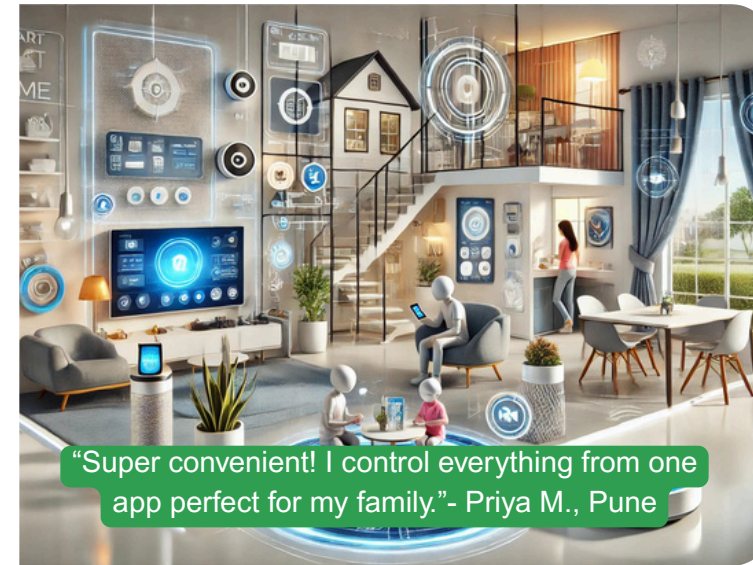

## Sensor-Based Automation

Integrate motion, door, temperature, or gas sensors for intelligent environmental control and safety alerts.

## Retrofit-Friendly Installation

No rewiring needed—Skroman works with your existing setup, making it perfect for both new homes and upgrades.

## Corporate Clients
